# Program Governance

# Seeking to deliver better?

For organizations seeking stakeholder alignment and effective governance for reliable delivery across their portfolios of programs and projects, whether IT or non-IT

**1**

**Portfolios & Transformation**
Adopt a tool for executive engagement in delivering portfolios and transformation

**2**

**Alignment & Accountability**
Obtain and sustain a shared understanding of goals, roles, status, issues, and plans

**3**

**Complex Stakeholder Groups**
Enlist, inform, and leverage representatives from key groups, including finance teams

**4**

**Milestones & Snapshots**
Separate "signal" from "noise" by focusing on milestones, key success factors, and risk

**5**

**Deliverables & Responsibilities**
Focus on key outputs and the responsibilities of those delivering them

**6**

**Complement to Tactical Tools**
Let your teams stick with their preferred PM / IT tools for work management
